## Structures S Licensed Technician

### The position

We are looking for a Structures S Licensed Technician to be responsible for performing a full range of aircraft sheet metal duties including disassemble, modify, repair, and reassemble complex aircraft metal items. Other key responsibilities include:

- Repair, fabrication or modification of airframe structures as assigned in accordance with approved technical instructions.
- As a member of the AAR team, work to achieve quality, cost and time commitments.
- Assist in mentoring Apprentice Technicians.
- Perform initial inspection of aircraft upon receipt into heavy maintenance within scope of Transport Canada S License.
- Perform maintenance release of completed task and address any identified discrepancies.
- Perform inspections, use SRM/drawings to determine serviceability of part/structure.
- Map damage out of limits and send assessment to engineering for validation.
- Actively participate in AAR Windsor's Safety Management System (SMS) including reporting safety hazards and incidents encountered in daily operations; understands and promotes the company safety policy.
- Maintain a clean and safe work environment.

### Total rewards

As a team member, you receive:

- Licensed Pay Range \$30.98 to \$36.53/hr
- Applicable Shift premium
- If granted ACA, pay range \$37.94 to \$46.49/hr
- Comprehensive benefits package
- RRSP Contribution – employee and employer
- Annual uniform and safety boot allowance
- Paid time off benefits, including 11 company paid holidays
- Third-party discounts
- Relocation assistance may be provided, if required
- Training and development opportunities and education assistance program

- Staff engagement and recognition events

## Performance objectives

- **Teamwork** – collaborates with colleagues to achieve results and is also comfortable working independently
- **Building trust** – operates with integrity, discloses own positions, remains open to ideas, and supports others through dignity, respect, and fairness
- **Building relationships and partnerships** – develops and leverages relationships within and across teams to achieve results
- **Communication** – conveys information and ideas clearly and concisely to individuals or group in an engaging manner, helping them understand and retain the message
- **Quality orientation** – accomplishes tasks by considering all areas involved, no matter how detailed
- **Sound professional judgement** – applied to problem solving, analyzing and decision making

## Education and experience

- Transport Canada 'S' license
- Minimum 5 years' experience in Aircraft Structural Repair, Modification and Fabrication
- Clear understanding of manufacturers and regulatory documentation, including Service Bulletins, Engineering Drawings, etc and ensuring a thorough application of technical documentation
- Clear understanding of Canadian Aviation Regulations (CARS)
- Extensive knowledge and skilled use of the tools of the trade and the processes to perform duties as assigned
- Must have own set of tools and toolbox (specialty and calibrated tools provided)

## Why should you apply?

- AAR is the only aerospace / defense company on Forbes' America's Best Mid-Size Employers list.
- Our innovative and entrepreneurial culture encourages employee input in every aspect, from day-to-day activities to the company's future growth.
- Our learning and career development program affords employees a learning path with the necessary tools and resources needed to help build their career at AAR.
- We support non-profits and organizations that work to improve society in four primary areas: veterans and active military; education with an emphasis on STEM; health and wellness; and diversity / inclusion.

## Working Conditions

- Works on the Hangar floor
- Shift work
- Overtime may be required
