NDT (Non-Destructive Testing) Inspectors

The position

We are looking for NDT (Non-Destructive Testing) Inspectors. The Technician performs and ensures safe and efficient work and troubleshooting on structures and components of various model of Aircraft, providing experience-based input and suggestions on improvements in support of continuous improvement. Daily operational work will be based on the principles of Lean Production.

Key Roles & Responsibilities:

- Responsible for performing NDT (FPI, MPI, ET, UT and IRT) with appropriate supervision on aircraft parts, components, nacelles, wheels, brakes, assemblies, or systems to verify no damage, cracks, or other visible or invisible imperfections affecting form, fit, function, or safety are present before or after repair operations.
- Uses equipment and testing techniques such as fluorescent penetrant inspection, magnetic penetrant inspection, eddy current machines, ultra-sonic testing equipment, thermography inspection, specialized and common tools.
- Set up and standardize equipment, process parts, interpret and evaluate for acceptance or rejection, and document results.
- Capable of developing work instructions from approved general procedures.
- Authorized to verify completed work was done in accordance with approved data, inspects and verifies other employees' work was done in accordance with approved data, and is authorized to inspect and certify parts are airworthy and release them for service per airworthiness authorities and regulations.

Qualifications:

- High Vocational Diploma in Production or Mechanical / Bachelor Degree in Engineering – Major in Mechanical or aerospace engineering or related.
- Having work experience in aerospace business, especially with focus on NDT skills (FPI, MPI, ET, UT and IRT).
- Capable of making key decision under pressure and meet requirements of the Aviation regulations.
- Capability to read and interpret mechanical drawings and work instructions
- Ability to read, write and understand English and computer literacy is required

- Able to read, interpret and understand SRM, CMM Manual, IPCs and/or specifications
- Able to read Technical data sheet and material safety data sheet.

Total rewards

As an AAR team member your rewards include:

- Annual uniform
- PPE safety equipment
- Transportation
- Vacation benefits, including Thai Public Holidays
- Provident Fund
- Group Insurance
- Training and development opportunities
- Staff engagement and recognition events

Performance objectives

- **Teamwork** – collaborates with colleagues to achieve results and is also comfortable working independently
- **Building trust** – operates with integrity, discloses own positions, remains open to ideas, and supports others through dignity, respect, and fairness
- **Building relationships and partnerships** – develops and leverages relationships within and across teams to achieve results
- **Communication** – conveys information and ideas clearly and concisely to individuals or group in an engaging manner, helping them understand and retain the message
- **Analytical skills** – must be able to use data to determine cause and effect for complex problem solving
- **Quality orientation** – accomplishes tasks by considering all areas involved, no matter how detailed

Why should you apply?
